TRAIN THE TRAINER

Are you currently training others or aspiring to work in the area of learning and development? Training groups and individuals well, requires skill and practice.

In order to develop others, you must plan an approach that meets the needs of your learners.

This practical 3 day workshop is designed to build on your skills as a workplace trainer. You will explore the theory and develop your abilities to enable you to facilitate positive and effective learning experiences for others.

Workshop will include:

- How to plan your sessions to achieve learning outcomes
- Approaches for managing the challenges
- Models for Coaching
- Tips for delivering engaging sessions
- Use of training aides and resources

Our facilities offer a professional learning environment with comfortable group sizes.

Dates and times can be arranged on application.
